

## **Thesaurus maintenance WG workshop, Heraklion, Crete (16-17/6/2015)**

### **Tuesday, 16.06.15**

11:00-11:30: Welcome, presentation of WG and workshop objectives

11:30-13:30: Presentation of the facets, hierarchies and narrower terms we have defined in the framework of the designing Thesaurus for the Humanities

13:30-14:30: Lunch

14:30-18:00: Implementations, discussion and comments on the definitions

- Clarification of definitions and discussing application of intellectual analysis methods
- Testing coverage of random terms by provided facets/hierarchies
- Approval of definitions
- Identification of definitions needing refinement
- Identification of missing hierarchies

### **Wednesday, 17.06.15**

9:00-10:30: Martin Doerr: How to integrate local thesauri to the backbone thesaurus

10:30-11:00: Coffee break

11:00-13:00: Discussion: Using and maintaining the backbone thesaurus

- Discussing adequacy of description of methodological principles
- How to train people using the backbone for their terminology
- Maintenance workflow, engagement and commitments, how to train people in backbone maintenance functions

13:00-14:00: Lunch

14:00-16:00: Tools

- Adaptation of workflow control S/W
- Interfacing SKOS thesaurus tools with workflow
- How to implement linking in of local thesauri, viewing the backbone with local thesauri, viewing a local thesaurus only with the backbone, caching the backbone down to local thesauri Architecture and interface definitions
- Definition of S/W development, hosting and service provision needs

16:00-16:30: Coffee break

16:30-18:00: Allocation of work

- Subworkpackage 1: Intellectual principles of thesaurus maintenance methodology
- Subworkpackage 2: Social collaboration
- Subworkpackage 3: Tools
- Subworkpackage 4: Empirical material for testing
- Planning next meetings
